Autonomous & Connected

Imagry

Autonomous & Connected

An Autonomous Driving (AD) software provider that has created a mapless driving system enabling passenger cars and midi-size buses to drive L3/L4.

imagry.co ›

IMAGRY
MAPLESS AUTONOMOUS DRIVING

Cipia

Autonomous & Connected

Cipia offers computer vision and AI based driver and occupancy monitoring solutions for safer and smarter cars and fleets.

cipia.com ›

cipia

Autonomous & Connected

Streamline Fleet Operations with Enigmatos' CyberAutoMatics®. Maximize fleet uptime, improve security & safety with data-driven decision-making tools.

enigmatos.com ›

ENIGMATOS
Automotive   Cyber   Security

Foretellix

Autonomous & Connected

Safety-Driven Verification & Validation for ADAS & ADS

foretellix.com ›

foretellix
THE ROAD TO SAFE AUTONOMY

Autobrains
Autonomous & Connected
Autobrains, a leader in automotive AI, enables the safe transition from ADAS to AD through its patented self-learning & signature-based AI, solving today's industry challenges.

autobrains.ai ❯

Inpris
Autonomous & Connected
Inpris HumAIs are autonomous driving companions, enabling natural conversation and proactive control of car functions and 3rd party systems.

humains.com ❯

roads AI
Autonomous & Connected
Bridging the gap between human drivers and automated driving systems.

roadsai.co ❯

Abilisense
Autonomous & Connected
Abilisense: Enhancing vehicle safety with AI-powered contextual sound analytics for incident detection.

abilisense.com ❯

CorrActions

Autonomous & Connected
Cognitive State Monitoring at Your Fingertips

corractions.com ❯

Tupaia

Autonomous & Connected
Tupaia introduces a new paradigm in GNSS based precise positioning, enabling centimeter level accuracy via a unique and simple cloud API.

tupaia-pos.com ❯

C2A Security

Autonomous & Connected
C2A Security is the only mobility-centric DevSecOps Platform that addresses the industry's specific needs.

c2a-sec.com ❯

ADASKY

Autonomous & Connected
"A developer and manufacturer of LWIR thermal-based ADAS cameras and perception algorithms for enhancing pedestrian and passenger safety in all harsh weather conditions."

adasky.com ❯

EcoMotion
Smart Mobility Community

DriveU.auto
Autonomous & Connected
Teleoperation Connectivity Platform for robots and autonomous vehicles. Deploy autonomous fleets with confidence with low-latency, high-quality video

driveu.auto ❯

Aurora Labs
Autonomous & Connected
Vehicle Software Intelligence - Solving the challenges of Automotive Software Development with AI

auroralabs.com ❯

M-Adas
Autonomous & Connected
M-Adas' Intelligent Speed Adaptation offers clear visual cues, preventing errors and automating safe travel speeds. Award-winning Israeli software

m-adas.com ❯

Lidwave
Autonomous & Connected
Lidwave, a pioneering deep-tech startup, developed a revolutionary perception sensor-on-a-chip that disrupts the LiDAR industry.

lidwave.com ❯

W LIDWAVE

NoTraffic
Autonomous & Connected
The World's Leading Mobility Platform

notraffic.tech ◉

Innoviz Technologies
Autonomous & Connected
Innoviz is a global leader in LiDAR technology for the AV industry. The company's solutions are also suitable for a wide range of use cases.

innoviz.tech ◉

Arbe
Autonomous & Connected
Arbe (Nasdaq: ARBE), a global leader in Perception Radar Solutions, is driving a radar revolution, enabling truly safe ADAS today while paving the way to full autonomous-driving

arberobotics.com ◉

Cognata
Autonomous & Connected
Leading provider of simulation, validation, and testing solutions for autonomous systems, accelerating the development and deployment of self-driving technology.

.cognata.com ◉

GuardKnox
Autonomous & Connected
GuardKnox is an autotech company developing products that address the key challenges in next generation E/E architecture and enable the software-defined vehicle.

guardknox.com ❯

Carteav
Autonomous & Connected
We bring a SAFE autonomous solution to the geo-fenced low-speed vehicle (LSV) market – significantly reducing on-site transportation costs for our customers and thrilling riders

carteav.com ❯

Tactile Mobility
Autonomous & Connected
Unlocking the Power of Touch: Tactile Mobility's cutting-edge software harness AI and ML, to revolutionize mobility with tactile sensing technology.

tactilemobility.com ❯

Foresight Automotive
Autonomous & Connected
Leading provider of simulation, validation, and testing solutions for autonomous systems, accelerating the development and deployment of self-driving technology.

foresightauto.com ❯

Enervibe
Autonomous & Connected
Movement. Energy. Data. Enervibe develops kinetic energy harvesters and self-powered wireless sensors for the Automotive and Industrial-IoT industries.

enervibe.co ❯

VISS
Autonomous & Connected
A collision alert system, transmitted to all road users including autonomous vehicles via V2X. Alerts are sent well in advance to reduce accident risk.

viss-sys.com ❯

Opsys Technologies
Autonomous & Connected
The world's most advanced pure solid state scanning LiDAR. Opsys' patented technology, with no moving parts, will drive the mass adoption of ADAS.

opsys-tech.com ❯

TriEye
Autonomous & Connected
Pioneer of the world's first CMOS-based Short-Wave Infrared (SWIR) sensing solutions, enabling imaging and ranging under all visibility conditions.

trieye.tech ❯

DeepKeep LTD
Autonomous & Connected
The sole Generative AI platform that detects AI vulnerabilities, including unseen & unpredictable ones, with automated security & trust remedies.

deepkeep.ai ❯

Mobility Services

BLITZ Technologies
Mobility Services
BLITZ has created a cleaner, smart and more cost-efficient means of transport for the last mile market providing a full-service solution including telematics.

blitzmotors.com ❯

Eye-Net
Mobility Services
Eye-Net develops next-gen V2X collision prevention solutions and smart automotive systems to improve road safety for everyone.

eyenet-mobile.com ❯

Magna BSP
Mobility Services
"innovative startup in the Video Analytic in real time with 3D image processing based on A.I. and Deep Learning, for IR and Visible cameras"

magnabsp.com ❯

Wisesight
Mobility Services
With its unique video-based AI platform- WiseSight brings monitoring and enforcement of on-street parking and transportation to the next level.

wisesight.ai ❯

Ravin AI
Mobility Services
Ravin AI is an automated vehicle inspection tool that uses advanced computer vision and deep learning to analyze car damage while generating a 360° condition report.

ravin.ai ❯

Trucknet
Mobility Services
Smart solutions for digitalization and reduction of transportation costs, an online tool and a patented Trucknet Smart Catalyst for fuel consumption and emissions reduction.

trucknet.io ❯

HopOn Mobility
Mobility Services
HopOn is a leading MaaS provider in Israel and Europe which serves millions in their mass transit and micro-mobility daily commute.

hopon.co ❯

Exelerate Smart Traffic Ltd
Mobility Services
Exelerate provide a traffic management and control system, a holistic solution & advanced AI algos.

exelerate.com ❯

Pink Park LTD
Mobility Services
application that offers a wide variety of parking lots, offices and private parking spots(similar to Airbnb) and our unique feature is the option to reserve parking in advance

pinkpark.co.il ❯

Jungo Connectivity
Mobility Services
Jungo revolutionizes driver safety with its life-saving in-cabin sensing AI software for OEMs and fleets. It monitors driver behavior and vehicle interior, ensuring safer roads.

jungo.com ❯

Youkol Systems Ltd
Mobility Services
"360° protection from cellular distractions and EM radiation. 100% app-agnostic software made to protect drivers, pedestrians, and scooter/bike riders. Attuned to ADAS and OEMs."

youkol.biz ❯

Motus-Tech
Mobility Services

Motus-Tech is a cutting-edge software company that developed high resolution, spatially explicit agent-based urban simulation software.

motuscity.com ❯

RoadHub
Mobility Services

"RoadHub accelerates urban commute by integrating car-park and public transport into highway interchanges, reducing private car entry into cities"

roadhub.design ❯

Auto3P
Mobility Services

"Global leader in Auto Claims and Repair software solutions. Revolutionizing with AI & Connected car data to deliver unmatched automation and Autonomous Repair Estimations"

auto3p.com ❯

Ride Vision
Mobility Services

The first and only commercial Anti Collision, Safety & Telematics System to prevent motorbike accidents for OEMs, Insurers, Fleets & Riders

ride.vision ❯

Watergen
Mobility Services
Watergen Mobility is an innovative Atmospheric Water Generator
system that produces drinking water from the air right onboard
cars, buses, RVs, trains

watergen.com ➤

Autofleet
Mobility Services
The end-to-end software platform for optimized, reliable and
sustainable transportation services for fleets and mobility
operators

autofleet.io ➤

ROADZ
Mobility Services
Roadz is transforming the commercial fleet market from a siloed
industry into a connected open ecosystem, helping fleets and
solution providers achieve their goals.

roadz.com ➤

ROADZ

Electrification & Energy

Driivz
Electrification & Energy
A market-leading, end-to-end EV charging and smart energy management software platform.

driivz.com ❯

City Transformer
Electrification & Energy
An urban Micro EV that can change its width while driving from 1.4m to 1m, combining the agility of a motorcycle and the comfort and safety of a car.

citytransformer.com ❯

Elinkair
Electrification & Energy
Elinkair's Telescopic Current Collector is a new technology for dynamic and static charging of eBuses and eTrucks, that provides cost-effective solutions to fleet-operators.

elinkair.com ❯

Brightmerge
Electrification & Energy
Autonomous Electric Vehicle Charging for Fleets

brightmerge.com ➲

NanoScent
Electrification & Energy
Nanotechnology sensor platform for detecting gases and
VOCs in real time, now focusing on monitoring hydrogen
quality for the energy industry.

nanoscentlabs.com ➲

BaTTeRi
Electrification & Energy
BaTTeRi developed a solution for the EV charging market based
on a Zero Infrastructure method we created using our proprietary
charging robot Thomas.

batteri.energy ➲

IRP Systems
Electrification & Energy
IRP delivers innovative, high-performance e-powertrain systems.
Our vast portfolio serves a wide variety of e-mobility platforms,
making EVs accessible to everyone, everywhere

irpsystems.com ➲

EVR Motors
Electrification & Energy
EVR Motors has developed a unique, patented motor topology:
The TS-RFPM Motor Topology. Enabling smaller, lighter, lower-cost motors, tailored to user requirements.

evr-motors.com ➔

Make My Day
Electrification & Energy
"Make My Day–the smart solution for EV fleets
We are simplifying EV fleet charging and operation with smart route planning for EV drivers and fleets."

makemydayapp.com ➔

JP Motion LTD
Electrification & Energy
"Modular Motion system for EV We are startup company that development EvoDrive product that collects 3 main components of powertrain system for EV: motion, control and converter."

jpmotion.co.il ➔

Drones & Aviation

Visionary.ai
Drones & Aviation
Visionary.ai's edge AI software helps cameras improve real–time video quality in extreme low–light and HDR. 100 Most Promising AI Startups 2023 winner.

visionary.ai ❯

High Lander
Drones & Aviation
High Lander provides drone–agnostic fleet management software and an advanced UTM for consolidated air traffic management.

highlander.io ❯

SMART SENSUM LTD
Drones & Aviation
Smart Sensum is an innovative startup company that specializes in developing advanced electromagnetic devices based on metamaterials and metasurfaces.

smartsensum.com ❯

Transformer
Drones & Aviation
Transformer is a novel concept in fixed wing VTOL UAV. It can switch between hover and efficient cruise modes, offering extended range, flight endurance and payload capacity.
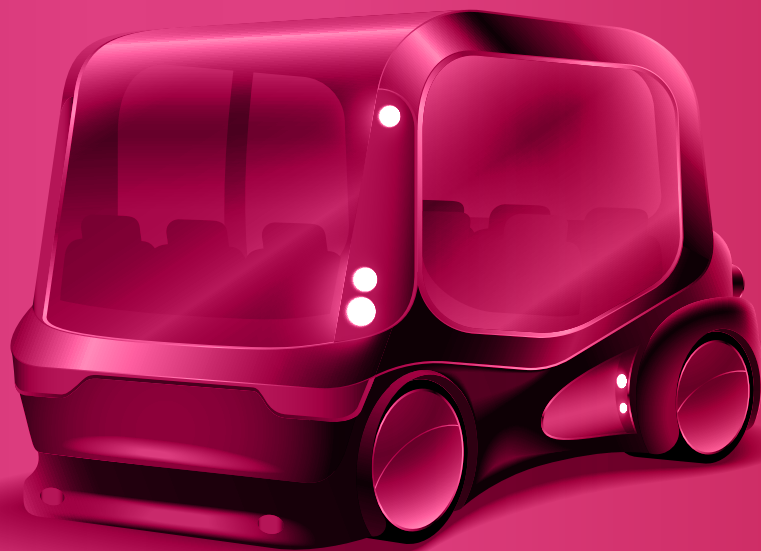

transformer.com ❯

CoreAvi
Drones & Aviation
We brings safety critical AI & ML, to the future of Automotive & Industrial. As a platinum member of â€œThe Autonomous", we participate in the creation of new safety standards.

coreavi.com ❯

Supply Chain

PNY Delivered Ltd
Supply Chain
PNY is developing and manufacturing Last-mile delivery E-cargo motorcycles, designed to carry triple the cargo capacity than regular scooter, while improving riders' safety.

ponydelivered.com ❯

Bringoz
Supply Chain
End-to-End Automated Delivery Management System

bringoz.com ❯

CASTOR
Supply Chain
CASTOR is a leading industrial 3D Printing software that enables to optimize manufacturing and increase profitability by identifying suitable parts for additive manufacturing.

3dcastor.com ❯

Deeyook Location Technologies
Supply Chain
Deeyook Touchless Tracking: Locate everything, anywhere, anytime

deeyook.com ❯
